Table of contents

1 Source Code.....	2
2 Binary Distribution.....	2
2.1 Core Package.....	2
2.2 Image Package.....	2

All distribution files are available on the [Sourceforge project page](#).

1 Source Code

Go to the [Sourceforge Project Page](#) to download the source code.

2 Binary Distribution

The binary distribution is divided into two packages:

2.1 Core Package

The **core** package that contains the base functionality of interpreting and rendering CGM graphics.

[jcgm-core-0.2.0-bin.zip](#)

The core package has no dependencies.

2.2 Image Package

The **image** package that provides an [ImageIO](#) plugin for reading CGM files and an [XML Graphics](#) loader for displaying CGM graphics in a PDF file by using [FOP](#).

[jcgm-image-0.1-1-bin.zip](#)

The image package depends on

- the core package
- the [Apache Commons Logging package](#)
- the [Apache XML Graphics Commons](#) package
